

APP OVERVIEW

Application Name: AI Call Reviewer **Purpose:** Sales call tracking, AI-powered review, scorecard evaluation, and coaching feedback platform for sales reps and managers.

Navigation (Sidebar):

- Engage
- Calls (expandable)
 - Calls List
 - AI Call Reviewer
 - AI Theme Spotter
- Revenue
- Coaching (expandable)

SCREEN 1 — AI Call Reviewer (Calls List)

Screen Name: AI Call Reviewer — Calls List **Route:** /calls/ai-reviewer

Purpose of Screen: Landing screen for the AI Call Reviewer module. Displays all sales calls for the logged-in rep, with search, type filter, sort, and quick review status visibility.

Components

- Page header (title + subtitle + CTA button)
- Search bar (full-width)
- Dropdown filter: Call Type (All Types / Discovery / Demo / Negotiation / Follow-up / Cold Call)
- Dropdown sort: Sort Order (Newest First)
- Data table (calls list)
- Tags/chips on each row (e.g., Enterprise, High Value, Technical, Urgent, Outbound, Onboarding)
- Score badge (colored circle with number)
- Status badge (Reviewed / Feedback Pending / Not Reviewed / Acknowledged)

Table Columns

Column	Description
Call	Call name (linked) + tags below
Account	Company name
Date & Time	Date and time of call
Duration	Call length (MM:SS)
Type	Discovery / Demo / Negotiation / Follow-up / Cold Call
Stage	CRM stage (Qualification, Demo, Negotiation, Closed Won, Prospecting)
Score	AI score numeric badge (color-coded)
Status	Reviewed / Feedback Pending / Not Reviewed / Acknowledged

User Actions

- Search by account, keyword, or call name

- Filter by call type (dropdown — All Types, Discovery, Demo, Negotiation, Follow-up, Cold Call)
- Sort calls (Newest First)
- Click on a call row → navigate to Call Detail screen
- Click "View Performance" → navigate to Coaching & Insights screen

APIs

1. GET /api/calls

Purpose: Fetch paginated list of calls for the logged-in rep

Request Params:

- page (number)
- size (number)
- search (string — searches call name, account, keyword)
- type (string — All / Discovery / Demo / Negotiation / Follow-up / Cold Call)
- sort (string — newest_first / oldest_first)

Response Fields:

- id
- callName
- account
- dateTime
- duration
- type
- stage
- score
- status (Reviewed / Feedback Pending / Not Reviewed / Acknowledged)
- tags[] (Enterprise, High Value, Technical, Urgent, Outbound, Onboarding)

Dynamic Data

- Call type dropdown values (fetched or hardcoded enum)
- Sort options (hardcoded enum)
- Score badge color: Green (80+) / Yellow (65–79) / Red (<65)
- Status badge colors: Reviewed (blue) / Feedback Pending (yellow) / Not Reviewed (gray) / Acknowledged (green)

States

- **Loading:** Skeleton rows in table
- **Empty (no calls):** "No calls found" message
- **Empty (filtered):** "No calls match your filter" message
- **Error:** "Failed to load calls. Try again."

SCREEN 2 — Call Detail: Overview Tab

Screen Name: Call Detail — Overview **Route:** /calls/ai-reviewer/:callId/overview

Purpose of Screen: Detailed view of an individual call. Shows audio player, full transcript with timestamps, and a right-side AI Insights panel. Three tabs: Overview, Review, Feedback.

Components

- Back navigation link ("Back to My Calls")
- Page header: Call name, Company, Date & Time, Duration, Type, Stage
- Participants list (Rep name, Buyer name, optional Tech Lead)
- AI Score badge (top right, large)
